Bingham Company Secures Con trol Through Boston Bankers.

IN LEAD PRICES

WELL GROUNDED FEAR THAT A SLUMP IS IMMINENT.

New York, March 28.-The Bingham Copper & Gold Mining company of Utah has acquired control of the Grand Central mine of Utah through the banking house of Hornblower & Weeks of this city and Boston.

The significance of the above brief wire consists in the fact that the option which gave a time limit of June 1 has been taken up without a wait or a hitch of any kind and is a confirmation of President Coram's announcement on Monday that the deal had been

That a distribution of the more than ,/90,000 involved will occur before the st of June is now assured and the resumption is that as many of the minority as now care to go in at the same rate—\$8 a share—will be accom-

The next piece of important news that may be looked for is that the same combination has closed a deal for Samuel McIntyre's 208,600 shares of Mammoth stock at \$3 a share

PRICE OF LEAD,

Well-grounded Fear That a Cut is Imminent.

There has been a premonition among the operators of lead-producing mines for nearly a week past that a cut in the market price of that metal was imminent, and for the purpose of learning, if possible, what grounds there were for the growing telief that something was about to happen, Manager T. R. Jones was questioned on the sub-

stated that no official news had He stated that no which hews had been received, but it would not be surprising if a cut was made. The supprising the decident was what regulated the price. When a reduction in the price might be expected he was not prepared to say, neither was he willing to guess how great a cut would be made.

was he willing to guess how great a cut would be made.

As is well known, the present market price of \$4 per hundred pounds is being main aimed solely by the Smelter trust, and the moment it serves its purpose to drop it, down it will go. There is nothing reassuring in the prospect, for under the present arrangement the producers get little more than \$2.50 per hundred for the lead contained in their ores. Should the market price be dropped to \$3.50 they would only receive about \$2, and without a corresponding rise in the price of silver—something which has been looked forward to for some time, but which seems slow to materialize—they will be up against pretty hard conditions.

REPORT FROM YANKEE.

Manager Franklin Received Import-

ant Advices Yesterday. Telephonic advices from the Yankee Consolidated yesterday afternoon were of such a character that Manager of such a character that Manager Franklin decided to take the evening train and take a look at the mine himself. When questioned on what had happened, he said the report was that the upraise was in good looking ironquartz, but he would not admit that ore had been struck. "I don't expect to find ore for fifteen days yet," the doctor said, "as I believe there is an iron issure underlying the ore chute that contains nothing of particular value." The doctor expects to start work on the Mountain View during the coming week, and he makes no effort to conceal his intention of finally bringing that property and the Yankee into one company.

He was accompanied to the mine last night by L. N. Morrison and M. M. Milier.

UNITED SUNBEAM.

Sunbeam and El Rey Shareholders Can Now Get the New Stock.

The articles of incorporation of the United Sunbeam Mining company, a United Sunbeam Mining company, a consolidation of the Sunbeam Consolidated Mining company and the El Rey Mining company, whose properties are situated in Tintic district, were filed yesterday with the county clerk. The capital stock of the consolidated companies is fixed at \$150,000, in shares of I'each, 100,000 shares to be issued prorata to the stockholders of record in the Sunbeam company and the remaining 50,000 shares to be issued in like manner to the El Rey snareholders. A. 50.000 shares to be issued in like manner to the El Rey shareholders. A. E. Welby is president of the new company: Thores Kearns, vice president; E. L. Carpenter, secretary and treasurer; and Josiah Barnett, John L. Weber, David Keith and C. E. Loose are the other directors. A notice calling in the old shares for cancellation and issue of new appears in another part of the paper.

THE WEEK AT TINTIC.

Ore Shipments-Railroad to Mines-Grand Central Sale, Etc. (Special Corremondence)

Eureka, Utah, March 23.-Responding to several days of bright sunshine which put the wagon road in good which put the wagon road in good shape, there has been a little more than the usual tonnage sent out from the three shipping camps of the district, which came from the big shippers principally. The Centennial-Eureka forged to the front with a record breaker, sending out forty-six carloads. Following are the shipments from each mine, besides which the Mammoth mill provided two carloads of concentrates. marketed two carloads of concentrates

Grand Central Sale. Grand Central Saie.

The sale of the Grand central mine to the Bingham Copper & Gold company, which was confirmed in the Boston News Bureau of Monday by President Coram of that company, awakens considerable interest in mining circles here, and by many it is believed that the same gentiemen have secured an option on the control of the Mammoth mine, which is in the hands of Sam McIntyre. It is generally understood that if the Mammoth does pass into the hands of these gentlemen, it would result in closing down the mill, into the hands of these gentlemen, it would result in closing down the mill, which is deplored. The two properties would certainly make a bonanza with a big "B." In that event the Grand Central shaft would doubtless be sent to the deep and from the outiet for the bulk of the ores from both mines. The Mammoth shaft, besides being of but one compartment, is sunk for several hundred feet through the ore zone, and with the present depth, 1,900 feet, is a heavy handicap because of these facts

The future of the Grand Central, with its accession of the Wedgewood and King William claims, promises to be a dazzling one, and the Bingham Gold & Constant of the universally admit-Copper crowd, it is universally admitted, have secured a bargain.

New East Tintic to Build.

The Oregon Short Line seems determined to make a dividend earner of the new East Tintic railway, which it purchased last fall of J. C. Cunningham. Besides a spur to the Lower Mammoth mine, which is to be laid at once, it is said that work will be commenced on a line to reach the Grand Central, if a contract can be had, and also the Star Consolidated and Dragon iron mine on the south. To the Grand Central from the Mammoth end of the little road is but a short distance, with an easy grade, but it is all rock work. Not content with this, however, the management is surveying around the mountain east with a view of reaching Spy Hollow for the output of the Carissa Spy mine, which is getting to be considerable. From there it would be comparatively easy to reach the Humburg, May Day, Uncle Sam and Godiva, between which and Sar Heller and New East Tintic to Build.

comparatively easy to reach the Humbug, May Day, Uncle Sam and Godiva, between which and Spy Hollow are several other properties that may at any time become shippers.

Ten years ago the man who would have spoken of the possibility of a railroad around this almost inaccessible mountain would have been derided, but so rapid has been the progress in railroad building that it is now considered quite feasible.

railroad building that it is now considered quite feasible.

It is believed by some that the Short Line will not be alone in the effort to reach these lofty mines. Several weeks ago a party of Rio Grande surveyors camped in Dragon Hollow east of Silver City, and it was said to be their intention to survey for a road from that camp to the Star Consolidated mine. It is pointed out that from the mine. It is pointed out that from the Star the line on around to Spy Hollow would be much more feasible than the rugged route which the new East Tin-

There is quite an interesting story attached to the sale of the New East Tintle road to the sale of the New East Tintle road to the present owners. Mr. Tintle road to the present owners. Mr. Cunningham, after trying in vain to sell it to the Mammoth Mining company, gave an option on the line to two well known mining men for \$30,000. They opened negotiations with the Rio Grande Western officials, and had the trade about consummated for \$40,000, when their option expired. In the meantime the Short Line people offered to take the road at the advanced price, and Mr. Cunningham instead of the promoters pocketed the extra \$10,000. The line is standard guage, thereby saving the cost of reloading; the motive power is a Sheacog wheel engine, which can haul a load over almost any grade.

Will Increase Shipments.

Will Increase Shipments.

With the installation of a new mo-tor with sufficient power to operate its entire compressor and the completion of the switch from the New East Tintic railway, the Lower Mammoth will at once increase its shipments to fifty tons a day. As the metallic values of Lower Mammoth ore run from \$30 to \$40 per ton, it requires but little figuring to assure the marcholders that they have "something good." Thareholders that

West Cable Pays Up. The property of the West Cable Min-ing company, which was sold during the winter by the sheriff, has been re-deemed by the company, the debts and costs aggregating \$1,300. The ground costs aggregating \$1,300. The ground lies west of and alongside the Bullion-Beck, and on the south of the Sacra-mento Consolidated, which is exciting

much interest at present. GOLD BONANZA CAMP.

Great Preparations Making at Gold Mountain.

Most elaborate plans are under way for the scason's campaign among the mines and prospective bonanzas of the mines and prospective bonanzas of the Gold mountain district, and ere the close of the approaching month a small army of miners will be employed in what the best experts of the country have declared to be the most richly endowed gold-producing section of this state, if not of the entire west.

The record of the already famous Annie Laurie—a property that, under wise direction and a liberal expenditure of cash, has been converted from a mere prospect into a handsome dividend-earner—has stimulaied effort in

mere prospect into a handsome divi-dend-earner—has stimulated effort in every direction, and the Holland com-pany's property, the Sevier, Mammoth-Breckenridge, Miller, Surprise, Outzen,

eads that traverse the Annie Laurie possessions, and not a few of them have already been sufficiently opened up to show their value, both present and prospective, and the Mammoth-Breck-enridge and Blue Bird in particular are known to be ready to create a stir not at all out of proportion to their big neighbor.

neighbor.

These properties all lay to the northeast of the Annie Laurle, on the Fish creek side of the mountain, with the latter covering the top and represent the portion of the camp that up to date has received most attention.

To the north of the Annie Laurie, also on the Fish creek side, the recently purchased Tribune group, the Wheeler property and several other promising mines attest the liberal distribution of the precious yellow metal, and great results are promised from that section sults are promised from that section

also. To the southwest of the Annie Laurie and adjoining its possessions, over 2,000 acres of placer and lode claim land has just been made the basis of a company to be known as the Deer Creek Mining company, a corporation that will file its articles tomorrow. The purpose of the new corporation, which is to be officered by some of the leading men of the state, is to develop Zhe veins that run into its territory from the properties above described. The company is capitalized at \$1,000,000, in \$1 shares, with ex-Congressman William pany is capitalized at \$1,000,000, in \$1 shares, with ex-Congressman William H. King as president; C. W. Johnson, vice president; J. B. Weimer, secretary and treasurer; these, together with Secretary of State J. T. Hammond and Judge H. G. Twomey, completing the board of directors. It is the intention of the new company to build à road up Deer creek and get down to work on the property without a moment's delay, after the weather settles.

Other strong companies are preparing

to drop anchor in the same camp, and the season promises to be a hummer. TESORA MILL CONTRACT.

Other strong companies are preparing

Let Yesterday, to Be Finished in Sixty Days.

A contract for the new Tesora mill was signed and delivered to John Shea yesterday afternoon at the offices of the company in this city, one of the chief stipulations being that it should be finished and turned over to the company not later than the 23d day of May

or sixty days from yesterday.

That it will be completed on time there is no room to doubt, as the there is no room to doubt, as the foundations are in and material for the buildings will be on the ground early in the week. Part of the machinery has already been shipped and contracts for the remainder have been let for sometime. The plant will have a minimum capacity of 100 tons of crude ore daily and a fine record of production, both in milling and first class ores, is predicted from the moment the plant goes

licted from the moment the plant goes Architect V. B. Sherrod, accompanied by Duncan McVichie, went down to the mine last night and while the former The use of "77" starts the blood cours-

Mining Notes.

A carload of Dixon ore from Bingham was marketed yesterday. The May Day company sold four car-loads of high-grade ore yesterday. Henry Shields came down from the Park last night on mining business. Manager Charles H. Scheu went out POPULARITY OF AFTERNOON Honorine at Stockton, yester-

The Maxfield company of Big Cotton-wood sold a carload of rich ore on yesterday's market. The Ophir Hill company closed the week by marketing eighteen cars of concentrates yesterday.

The Valeo lessee, John Boyle, was in the market yesterday with a carload of gold-copper matte, the product of the little smelter now in operation at that

Park City property. Albert Richter Joined a party at Syre-cuse last evening, and today they will leave for some point on the shores of Salt Lake by boat. The promontory oil lands is thought to be their destination. The 135-ton shipment of Red Wing \$1.07%.

ore received Friddy, was sold yester-day on controls showing 43.5 per cent-lead, 83 ounces silver and 89c in gold. The iron excess amounted to 6 per cent-

solidated gold ore was sold yesterday on a basis of \$227 per ton, the consign-ment netting over \$2,700. Two cars of ore running about \$32 in gold besides the silver values, was also marketed

James Farrell, the Park mining operator, came down from camp last night. He says that between the report of a possible consolidation of the Ontario, Daly and Daly-West mines and the terrific storms of the past day or two the "oldest inhabitants" up there find plenty to talk about.

On a rumor that a drift from the Lower Mammoth had reached Manhattan ground and found ore there, another flurry in those shares occurred yesterday afternoon and from %c in the morning the shares jumped to 1½c and then to 1¾c. The stock was in strong demand around the latter figures when closing up time arrived.

An amendment to the articles of incorporation of the Ridge & Valley Mining company, adopted at a special meeting of the stockholders yesterday, was filed with the county clerk yesterday afternoon. The effect of the amendment is to increase the par value of the shares from 50 cents to \$1 and to decrease the number of shares from 500.00.

R. C. Chambers, president of the Daly-West and Daly Mining companies

at \$250,000.

R. C. Chambers, president of the Daly-West and Daly Mining companies and general manager of the great Ontario, made a flying trip to the Park yesterday on business connected with those propositions. Of work in the Ontario he said last evening that the cross-cut being run for the vein on the 1,700 level was out from the station a Shares.

**Licipation of a strike, has jumped up 10c a share.

Altogether the market has shown a bullish tendency and much enthusiasm of the past day or two have had a rather depressing effect.

Daily transactions at the regular call are reflected in the following summary:

\$\$Nares = Amt.\$\$ 700 level was out from the station distance of eightv-seven feet, with anywhere from 100 to 150 feet yet to run before connections are made.

IN THE COURTS.

MRS. GORDON DIVORCED. William B. Gordon from Colorado,

Consents to Pay Alimony.

Judge Hall yesterday granted a decree of divorce to Mary E. Gordon resterday's call on change was not a very enthusiastic one and a light business was done. Closing quotations whom she married on Dec. 4, 1894. The plaintiff was represented by Attorney A. V. Taylor, and the defendant, through his attorney, George B. Green-wood, consented that judgment might be taken against that a son that pack of the telephone building. On Thursday the fourth indictment against Hamilton of assaulting Patrol man Pack when he joined in the man hunt, was dismissed on consent of District Attorney Eichnor for the reason that pack of the telephone building. On Thursday the fourth indictment against Hamilton of assaulting Patrol man Pack when he joined in the man hunt, was dismissed on consent of District Attorney Eichnor for the relephone building. Slue Bird and many other properties, are counted upon with confidence to add to the great camp's lustre during plaintiff was represented by Attorney the year.

Nearly all of them cover the same through his attorney, George B. Green-Albion through his attorney, George B. Green-wood, consented that judgment might be taken against him. Gordon is now in Colorado. Since last March this suit has been pending, the plaintiff's allegation being that her husband had willfully failed to provide for her support for more than a year before the suit was instituted. Besides Mrs. Gordon, Anna Oakley and Bellet Groshell testified in plaintiff's behalf. With the decree of separation Mrs. Gordon was awarded alimony at the rate of \$30 a month and \$100 for the fees of her attorney. fees of her attorney.

Divorce Decree Amended.

Judge Stewart yesterday granted the motion of plaintiff's attorneys in the case of Clarinda B. Stover vs. James A. Stover, to amend the decree of divorce granted a week ago by striking out the recital that the father was awarded the custody of the children because of the mother's immorality. The plaintiff objected to the decree showing that the custody of the children had been awarded to their father on the ground stated.

District Court Orders.

Philip Schwartz vs. Michael T. Ward; motion to dismiss appeal overruled. Axel Olson vs. Abraham Smith; mo-tion to quash summons withdrawn and defendant given ten days to plead.

Emma E. Johnson vs. Andrew Schulsen; demurrer to complaint overruled and ten days allowed to answer.

Max Idleman vs. Fritz Riepen; demurrer overruled and fifteen days allowed defendant to answer.

Bobert K. Smith vs. Michael Gibborg. lowed defendant to answer.

Robert K. Smith vs. Michael Gibbons et al.; plaintiff granted leave to file a reply to the answer of defendants Mary Olsen and A. T. Williams.

Hilda Hope vs. Halvor Hope; motion to suspend order for payment of attorneys' fees denied pending introduction of further testingony.

Project to Establish a Sanatorium Near Denver.

NATIONAL IN ITS SCOPE

AFFLICTED OF SMALL MEANS MAY SEEK HEALTH THERE.

Denver, Colo., March 23.-To save torium, which has just been incorpo- ings of stocks and bonds. The organization aims to be na-

tional in its scope and has the indorsement and support of many of the foremost physicians of the United States. Its purpose is to aid the great majority of tuberculosis patients in poor or moderate circumstances who come to Colorado and other mountain states in the hope that the climate and altitude will aid in effecting a cure, and who, almost invariably, either States. Its purpose is to aid the great L. H. Dunning & Co., Stockbrokers, D. F. Walker Bldg., Tel 735. and who, almost invariably, either from lack of means or proper direction, are immediately surrounded by conditions which preclude improvement .. Telephone, 694-2

The story of the tortures and hard-The story of the tortures and hardships of the consumptive of moderate means, who leaves home and friends and attempts to make his way in a strange city while battling for health, would fill volumes. A large majority of those coming to Denver are forced into office work or other clerical employment and to live in cheap boarding houses, where the food, ventilation and sanitation are poor to say the least. Under such conditions improvement is rare and recovery impossible.

The attempt will be made through auxiliary societies to reach these patients before they leave their homes in other states, so that they may be started on the search for health with as cheering an outlook as may be afforded by proper medical care, nourishing food, cheerful surroundings and an outdoor life in a sunny climate. Three Concurrent Sentences of Three Years Each-Boy Burglars Are Three years' imprisonment in the

an outdoor life in a sunny climate.

The problem of how best to care for the vast multitude afflicted with tustate prison on each of three separate berculosis and at the same time re charges of committing assault with a move a great public danger, has long puzzled the brightest minds in the medical profession. The subject has been discussed at every national and deadly weapon with intent to do-great nounced by Judge Stewart yesterday state meeting for years. Out of all the theories and schemes suggested, Denver physicians, after much careful study, have organized in an attempt to evolve something practical. In this they have had the advice of promiton, the desperate man who ran amuck on the streets of this city early on the morning of Jan. 19 last, when the po-lice were attempting to arrest him. The nent doctors in other cities, who hope that the ultimate result will be the removal of consumptives from large sentences run concurrently, so that Hamilton will have only three years in cities, thereby solving another hard

all to serve.

By agreement between District Attorney Eichnor and Johnson & Fowler, attorneys for the defendant, Hamilton was permitted to plead guilty to each of the charges and the court was asked to pass a moderate sentence. Not only was it deemed uncertain by the prosecution that the companying attresses. Erect a Sanatorium. Their plan provides for the erection of a sanatorium about twenty miles from Denver, to be conducted as an industrial colony. A large amount of money will be required. This it is expected can be raised by the "cottage endowment plan" cution that the complaining witnesses on the police force could positively identify Hamilton as the shooter, but it was regarded as doubtful whether endowment plan."
To secure these endowments by in-

it was regarded as doubtful whether the prosecution could disprove the plea that the accused shot in self defense when his gun went off in Ada Wilson's resort and Henry Lewis, the colored porter, was shot in the groin.

The two other charges against Hamilton were to the effect that he had shot at Patrolman O. P. Pratt, the bullet lodging in his foot, when he called on Hamilton to stop near the Theatre after coming out of the Commercial street house on the run, and that he had later fired his pistol at the patrolman when the latter closed in on him back of the telephone building. On Thursday the fourth indictment To secure these endowments by Individuals, fraternities, clubs, societies, churches, college alumnae, labor unions, etc., the Young Woman's Sanatorium auxiliary has been organized. A branch of this auxiliary will be established in every city and town in the United States.

It will be the duty of this society to the United States.

It will be the duty of this society to co-operate with the board of directors to secure money for the endowment of the cottages, to raise funds for a library, collect furnishings for the cottages and to interest wealthy people in the sanatorium. By utilizing the labor of patients it is expected that nearly all the work of the institution will be performed, the entire sanatorium sup-

plied with provisions, and a great va-riety of remunerative industries car-ried on. The industrial nature of the institution will enable patients to avail themselves of a change of climate while the disease is in its incipiency and be-fore they are incapacitated for light open air employment. open air employment.

The motto of the institution is:

"Helping others to help themselves is
the best charity." The institution is
not for profit. No dividends can be
declared and the net earnings will be Andrew Burt and George Powell, the boys who were arrested about ten days

declared and the net earnings will be used for the improvement and better ment of the enterprise. The incorporators of the Rocky Mountain Sanatorium are: William H. Gabbert, associate justice of the Colorado supreme court; Charles Hartzell, attorney; A. Mansfield Holmes, M. D.

The foremost physicians and business men of Denver are members of the directorate and the boards of the different departments. On the general advisory board are physicians of national reputation, belonging to large cities from Boston to San Francisco. The Denver promoters declare that success can come only by the people of each state which has consumptive pa-Grande Western Railway company in this city and stealing a keg of beer belonging to the Anheuser Busch Brewing company, were yesterday per-mitted by District Attorney Eichnor to

mitted by District Attorney Elchnor to withdraw their plea of not guilty to the information charging burglary and plead guilty to a substituted charge of petit larceny. Specially waiving time for sentence, Judge Stewart sentenced the boys to serve ten days in the county jail dating from March 15. This will enable them to be released on Monday. The prosecution took into consideration the fact that the boys had previously borne a good reputation and that they belong to respectable families in the southwestern part each state which has consumptive pa-tients lending a helping hand in placing the institution upon a substantial working basis. Unless such co-operaable families in the southwestern part of the city. tive support comes from citizens of other communities, their invalids will. other communities, their invalids will, as heretofore, meet with hardships and disappointments.

Experiments Are Encouraging.

The institution has been in opera-The institution has been in opera-tion in an experimental way for sev-eral months and the results so far are most encouraging. Operations on a large scale will be begun as soon as the public becames interested and a sufficient amount of co-operation is se-cured. The Young Women's auxillary is thoroughly organized and has already thoroughly organized and has already taken steps to form branches in other

laces. The International Trust company is the depository for the sanatorium and donations of funds are safeguarded by the constitution, which gives the directors supervision of the expenditures

of all moneys.

The benefit of sanatorium are briefly set forth in the prospectus as fol-lows: It will remove a constant source of danger from the private homes and M. C. A. for the northwest, arrived M. C. A. for the northwest, arrived in the city yesterday and will spend this week looking over the work in this state with a view to improving and spreading the association work in this district. He will meet with the board of directors of the association at noon every day of this week to advise with them in regard to ways and means of furthering the plans of the association and placing if upon a still better footing in the city.

This is one of Mr. Ward's periodical visits to the association here, but this visit is looked upon by the members of the association as meaning a great hotels of our cities; it will provide home comforts and proper hygienic and sanitary conditions for patients; it will provide treatment by specialists abreast of the times; it will secure the abreast of the times; it will secure the obedience of patients to the laws of health; it will secure the advantages of climate long known to be of great benefit in checking tubercular processes; it will furnish a home for patients who are financially unable to avail themselves of a favorable climate at a time when it will be of great benefit to them and at a time when they are able to perform light work and to be to a degree self-supporting. It will furnish an opportunity to patients who are financially able to pay for the privileges of the institution, to visit is looked upon by the members of the association as meaning a great stride forward in the work of the Y. M. C. A. As to just what plans of improvement will be advanced is not known yet, but it is expected that the noonday conferences with the directors will result in an impetus to the work that has not been felt for some time. Mr. Ward spent yesterday looking over the work in the city, and expressed himself as pleased with the showing it presented. He will be at the men's meeting today at 3 o'clock and will assist in conducting the services. for the privileges of the institution, to take 'up light, out-door employment suited to their tastes and ability, if they so choose, thus uniting the entire institution upon the broad plane usefulness.

F. AUERBACH & BRO.

WOULD EXCHANGE BONDS. Holders of Carnegie Stock Figuring on Deal.

Pittsburg, Pa., March 23.—The holders of the \$160,000,000 bond issue of the Carnegie company are now considering the exchange of them for bonds of similar amounts and terms of the United States steel consolidation. The matter has been brought to the attention of the stockholders of a circular signed by C. M. Schwab, president: W. W. Blackburn, secretary, and L. C. Phipps, treasurer. It was stated today that Andrew Carnegie has agreed to an exchange of bonds if all of the others are retired at the same time as his own and new ones issued.

For the most part the bonds will be exchanged in the same manner as the stock is being disposed of. It is the intention to retire all bonds that would be underlying, those of the National Tube company, Nationa Steel company, and Carnegie company are now considering

Denver, Colo., March 23.—To save the lives of thousands of persons belonging to other states from death by tuberculosis is the object of an organization of Denver physicians and other professional men and women for the establishment and maintenance of the Rocky Mountain Industrial Sanatorium, which has just been incorposition, it is said has been, or will be, submitted to the Carnegie people. Of the total issue, Andrew Carnegie will receive \$175,000,000 in addition to the payment of \$25,000,000 in cash for his total holdings of stocks and bonds.

Presidency of Steel Company.

New York, March 23.—J. Pierpont Morgan returned from his southern trip last night and was at his office today in conference with President Schwab of

Officers May Retire.

Voungtown, O., March 23.—It is reported in industrial circles that President W. E. Reis and Second Vice President W. T. Graham, two high salaried officials of the National Steel company, who were largely interested in its organization, will retire the coming month and that other officials of combines will shortly resign in pursuance of the policy to reduce salaries. of the policy to reduce salaries.

OHIO'S SHARE OF SPOILS.

Hanna and Congressmen Have Talk With the President.

Washington, March 23 .- Senator Hanna, General Grosvenor and Representative Dick had a protracted interview with the president today. When they left they said a large pertion of the time was consumed in the discussion of the army appointments to be assigned to Ohio.

It was stated that the report that Lieutenant Governor John A. Caldwell of Ohio, is to be appointed civil service commissioner to succeed the late Mark Brewer of Michigan, is incorrect. He was recommended for a St. Louis fair commissionership by Senator Foraker, but Ohio is not to have a place on that commission. It is entirely probable however, that he will be otherwise provided for.

Sent Free to Men.

Free Trial Package of This New Discovery Mailed to Every Man Sending Name and Address— Quickly Restores Strength and Vigor.

Free trial packages of a most remark-ble remedy are being mailed to all who vill write the State Medical Institute.

A. E. ROBINSON, M. D., C. M.,

Madical Director.

They cured so many men who had battled for years against the mental and physical suffering of lost manhood that the Institute has decided to distribute free trial packages to all who write. It is a home treatment and all men who suffer with any form of sexuel weakness resulting from youthful folly, premature loss of strength and memory, weak back varicocele, or emaciation of parts can now cure themselves at home.

The remedy has a peculiarly grateful effect of warmth and seems to act direct to the desired location, giving strength and development just where it is needed. It cures all the ills and troubles that come from years of misuse of the natural functions and has been an absolute success in all cases. A request to the State Medical Institute, 802 Elektron Building, Ft. Wayne, Ind., stating that you desire one of their free trial packages, will be compiled with prompting that great class of men who are unable to leave home to be treated, and the free sample will enable them to see how easy it is to be cured of sexual weakness when the proper remedies are employed. The Institute makes no restrictions. Any man who writes will be sent a free sample, carefully scaled in plain package so its recipient need have no fear of embarrassment or publicity. Readers are requested to write without delay. delay.
